Art Unit: 1754

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 16, 20-27 and 31 are rejected under 35 U.S.C. 103(a) as being unpatentable over So et al. in view of Bunger et al.

So teaches in columns 2, 3 preparing a 60% solution of a carbohydrate such as those claimed and adding lime, then carbon dioxide to pH 7. This differs in not explicitly exemplifying the claimed polyhydroxy, rather generally disclosing them among a list. However, choosing a reagent disclosed is an obvious expedient- In re Boesch 205 USPQ 215.

So does not teach the source of the lime, however Bunger teaches carbide lime in column 2, and limestone as a source in column 1. See also column 5. Using any Ca source (such as that of Bunger) in the process of So is an obvious expedient to produce a valuable carbonate material. So also does not teach filtering before precipitation, however this is an obvious expedient to make a pure product for food purposes (column 1), further noting the section in Bunger bridging columns 3-4.

Applicant's arguments filed 4/7/05 have been fully considered but they are not persuasive.

The purity argued is not claimed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to examiner Hendrickson at telephone number (571) 272-1351.
